ASEAN Institute for Health Development,  
Mahidol University, Thailand

## Advance Your Career in Health Care and Social Health Protection Leadership!

Are you passionate about improving health care systems and ensuring access to affordable and quality services for all? Take the next step in your career with our Master's program in Primary Health Care Management and Social Health Protection.

### Why Choose Our Program?

#### Comprehensive Curriculum

Our program offers a comprehensive curriculum designed to equip you with the knowledge and skills needed to effectively manage primary health care and design and design and implement social health protection programs.

#### Targeted courses

Our program offers specialized contents designed to address the specific needs and complexities of health care systems and social health protection in low and middle-income countries. Gain insights into sustainable health care management strategies, resource optimization, and social health protection mechanisms tailored to diverse contexts.

#### Expert Faculty

Learn from experienced faculty members who are leaders in the field of health care management and social protection. Benefit from their insights, mentorship, and guidance throughout your academic journey.

#### Global Perspective

Listen and interact with our external guest speakers from the United Nations and national institutions in Asia and Europe. Benefit from their firsthand knowledge of local health care systems, cultural dynamics, and social determinants influencing health outcomes.

#### Practical Experience and Practical Solutions

Gain hands-on experience through field visits in Thailand and apply your learning in actual health care settings. Acquire practical skills and tools to navigate the challenges of providing primary health care and social health protection in resource-constrained settings. Develop innovative solutions that prioritize equity, accessibility, and quality of care for underserved populations.

#### Global Network

Join a diverse community of students, alumni, and partners committed to advancing health equity and social justice worldwide. Forge connections, share best practices, and collaborate on initiatives that make a meaningful impact on people's lives.

### Career Opportunities

Graduates of our program are prepared to lead initiatives that strengthen primary health care systems, and bolster social health protection in low and middle-income countries. Whether you aspire to work in government agencies, international organizations, non-profit organizations, or academic institutions, our program will equip you with the skills and knowledge to drive positive change in social health protection and health care delivery and policy.

Seize this opportunity to become a catalyst for health care and social health protection transformation. **Apply now to join our vibrant community of scholars, practitioners, and change-makers.**
